REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or reasonably teach a system for machining the space between bones of a joint comprising a longitudinally extending barrel having first and second transverse guide blocks adapted to interact with a machining fixture to limit the longitudinal position and rotational or translational movement of the milling tool, and a milling head comprising a cutting blade disposed on the cutting head, comprising a base disk, a radially extending cutting flute, and at least one opening in the base disk. Thus, the examiner has allowed claims 1-19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
